How hours are counted in this report

- Employees table — Working hours count only rows with a project name; Leave hours are rows where project_name is blank.
- Weekly breakdown — Only working hours that have both a project and a work date. Total includes all such hours in the period; week columns show up to the 6 most recent weeks.
- Task heatmap — Total hrs sums all tasks for each employee (working hours only). Individual columns show only the top 10 tasks by team volume.
- If weekly or task totals are lower than working hours in the Employees table, the difference is usually hours logged without a date or task name.

Employee task heatmap (top tasks)

No task-level rows available for this filter set (rows: 0).

Employees (working & leave hours)

Employee	Team	Working hrs	Leave	Log rows
Ritesh Kumar Singh	Editorial_Maths	168.5	22.5	53
Mahesh Kumawat	Editorial_Maths	163.5	20.5	52
Ashok Kumar Sharma	Editorial_Maths	158.5	18.5	51

Weekly hours breakdown (project + date)

Employee	May 18-24	Period total
Ritesh Kumar Singh	168.5	168.5

Period total = working hours with a project and work date in this period. Week columns show the 6 most recent weeks only. Rows without a project or date are excluded from weekly columns.
